1. **Cultural Celebrations:** This class teaches children to respect and celebrate the differences in all people. Learning about different cultural aspects offers new experiences for children. It also helps them realize that we're all humans, despite differences in how we look or dress, or what we eat or celebrate. Games and activities offer a fun way for young children to learn about differences and similarities among people and to introduce the concept of diversity. Today we are more diverse than ever. Different backgrounds, cultures, and religions are interwoven into the average American class. However, not all students that come from various diverse backgrounds feel included or accepted. Let's celebrate diversity in our classroom and to make every single student feel accepted not only in their school and classroom but in life. Ms. Amanda, Room 3.
